all-in-one HR & risk management package for SMEs

Staying safe & compliant is a complex & time-consuming business. With constantly shifting legislation & policies, keeping on top of your responsibilities & documentation can be challenging.

Our package, designed with SMEs in mind is a cost-effective way to take the stress out of managing your business with access to all the documents & advice you need to stay compliant.

your HR & risk management solution

When managing your business, you likely don't have the time to stay abreast of the constantly changing employment legislation and health & safety policies, but not having a good understanding could lead to costly employment tribunals or Health & Safety Executive prosecutions.

In partnership with Romero Insurance Brokers, we have designed an all-in-one HR, Health & Safety and Risk Management platform giving you access to all the documentation and advice you need to keep your business compliant, for a low annual fee.

For just £75 +VAT per year, this package includes:

- **Document Library** - online portal with comprehensive business guidance, policies, templates and forms helping you manage all elements of your business.
- **Telephone Helpline** - a direct line to our HR and Health & Safety Experts answering any questions or challenges you're facing.*
- **Webinars & Training** - monthly virtual webinars and training covering a variety of topics helping you keep up to date and answer questions you might have on key topics.
- **Regular E-mail Bulletins** - providing an overview of breaking news and changes to legislation helping you keep up to date and compliant.
- **Discounted E-Learning** - our e-learning portal gives you access to discounted online training courses for you and your team.

access your package now

To find out more and access all these resources, **talk to your Romero contact** who can set up your portal giving you immediate access to these resources.

upgrade your package

If your business needs more support, you can upgrade your package to access a bespoke approach designed for the unique requirements of your business. This would be charged at an affordable monthly fee based on your number of employees. Ask your Romero contact about your upgrade options.
