So read on to learn more about the award-winning team who will be working alongside you to create a bespoke insurance programme. Delivered with the exceptional, award-winning service that sets us apart.

THE IMPORTANCE OF CHOOSING A SERVICE-LED INSURANCE BROKER

Insurance can be complex. Particularly in a commercial environment, where you have a multitude of risk factors, some obvious, but some not so. We have recently experienced a 'hard market', and insurers can make it more difficult than ever to get the best cover at a competitive price, now is the time that you need a strong, **service-led broker with an independent ethos** on your side, to get the very best for you.

Our position in the market means that we are not limited to who we can approach, allowing us to work with whichever insurer is placed to provide the best terms for you, whilst retaining the buying power to secure you the best deal possible.

By contrast, many national brokers and consolidators use a limited panel of partners, who often work on increased commission meaning you're paying more to pass on rewards to others. Leaving you with higher premiums and no added benefits to you.

In a drive for profit, many of these brokers are also looking to reduce their costs and service levels, often making their claims teams redundant and employing third party companies to do this role on their behalf which leaves you with reduced quality of service, and claims handlers who don't understand your policy. Meaning you don't get the best results.

Conversely, we have our own in-house claims & risk management teams with over 26 specialist claims managers, loss adjusters and risk specialists, working closely together to prevent claims occurring where possible, whilst also resolving them swiftly when they do.

By working with us, you get a broker with your benefits at heart. Dedicated points of contact who understand you and your policy meaning you get the best service, the best terms and a competitive premium.

THE UK'S MOST DECORATED INSURANCE BROKER

We're proud to have been recognised as the UK's Best Independent Broker by the industry's most prestigious awards institution.

We were the first broker to win this award more than once, now having won it three times in total. We also won the award in back to back years, reflecting our market-leading achievements and recognition in the sector.

But these awards aren't just meaningless trophies gathering dust on a shelf for us. They're the proof that our dedication to exceptional service & investment in people works. And the motivation to continually improve and deliver for businesses like yours.

Judges have continued to praise how our team go above and beyond for our clients, pulling out all the stops to get the best solution. Whether that's settling complex claims, securing competitive terms or simply delivering exceptional day to day service. It's this investment in our people that has ensured you can access the industry's best service for today and tomorrow.

WHILE OTHER
INSURANCE
BROKERS
MAKE BOLD
CLAIMS,
WE'RE BUSY
SORTING
THEM OUT.

Since our establishment in 1997, we have made our claims and risk management services key priorities for our business, to ensure we deliver industry leading service for our customers.

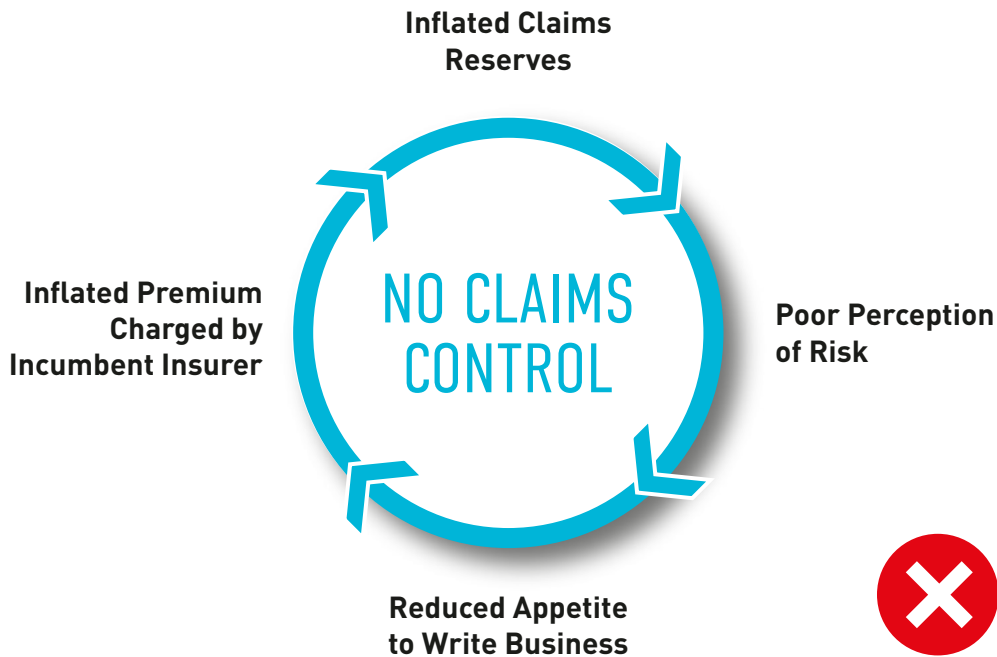

By recruiting top quality staff from insurers and loss adjusters and providing them with a challenging and rewarding environment, we're able to offer you the very best service. Making sure that when something goes wrong, you've got the best team on your side, fighting your corner.

We add value to every claim. However big. However small. We will never behave like a 'post-box', simply passing your claim on to the insurer and leaving you to deal direct with no support.

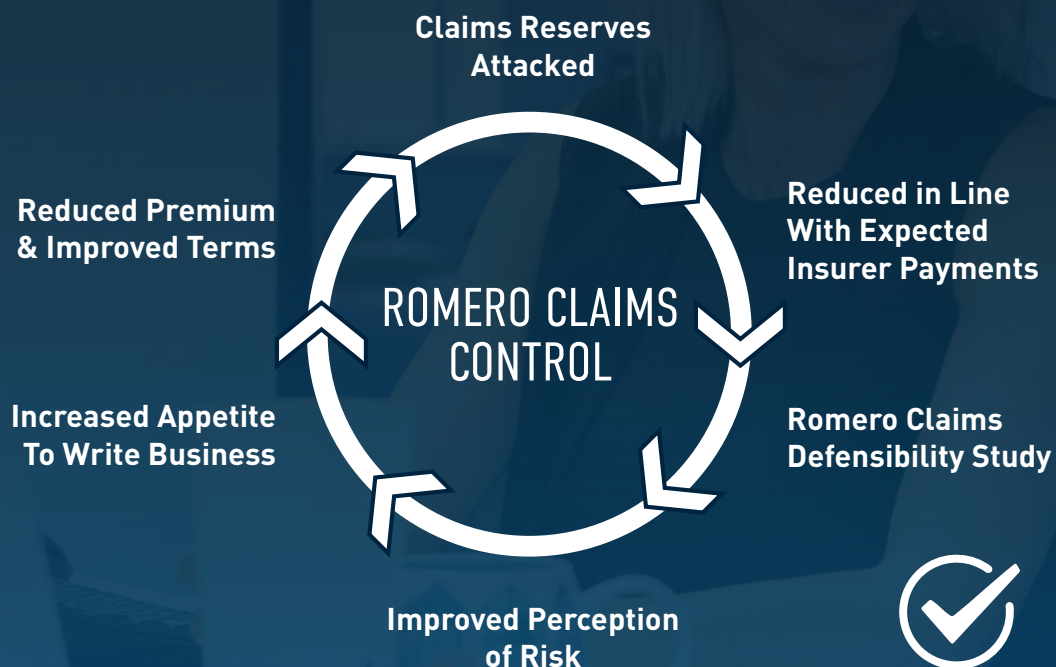

We don't get complacent. We don't let our standards drop.

We pride ourselves on being the very best for you and won't settle for anything less.

THE IMPACT OF OVER RESERVED CLAIMS

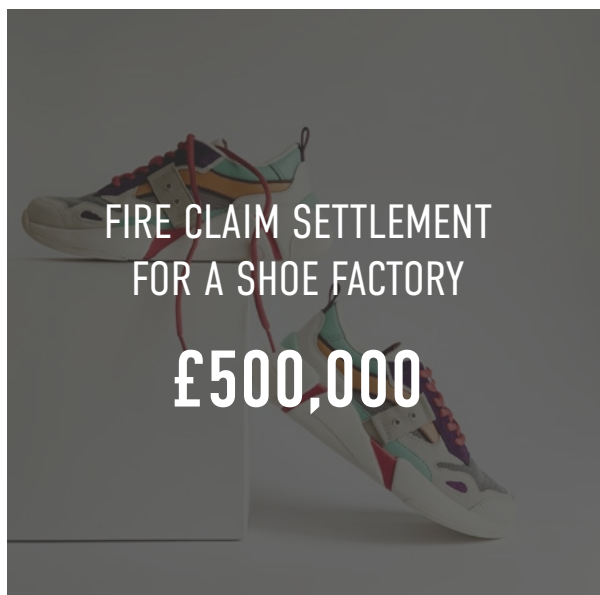

CLAIMS CONTROL = PREMIUM CONTROL

EXAMPLES OF LARGE LOSSES WE HAVE SUCCESSFULLY MANAGED

As we have worked with organisations in all industries and at all scales, we have seen claims of all shapes and sizes.

Here are just a handful of some of our successfully settled large claims, securing sizeable settlements for our clients thanks to the diligent work of our dedicated surveying, claims & loss team.

LARGE LOSS CASE STUDY

Our client owned a large two-storey hotel in the West Midlands. The hotel is owned and managed by separate businesses but operates as part of a well-known brand. This means a variety of stakeholders were involved in the process.

In the first week of August, a fire broke out at the hotel. The fire was initially started by a t-shirt left on a sauna, but soon spread throughout the entire building. Though more than 50 firefighters and 10 fire engines tried to tackle the blaze, the building was unfortunately almost completely destroyed.

The client has since recommended to two other businesses who are now Romero Clients.

Immediate on-site assistance support from the Romero Claims Team.

Claim accepted by insurers within a working week.

£1,000,000 Demolition Costs agreed within 10 Days.

Settlement in excess of £20,000,000 agreed and paid to the client within 3 months of the incident date.
